

# Evil Incarnate!

## Part 1

In the second half of my article about a *“Major Social Security Change Is Coming in 2022”*, I revealed the evidence that President Donald Trump is under the influence of the House of Rothschild. I noted Donald Trump owes Rothschild-controlled banks, between \$300- and \$600-million dollars. Actual tax documents presented show Trump has 16 loans from 11 different banks, each for at least \$50-million each, or at least \$800-million+. Although President Trump has done a lot of positive things in his first fifteen months of office, it belies a false representation to misrepresent the real agenda of men that pulls the strings that control President Trump from behind the scenes at 1600 Pennsylvania Avenue. I have no doubt that this will be a quite a shock to millions of Americans who believe President Trump will make America great again, but it is nothing more than a sugar-coated deception. President Trump is not his own man, not by a long shot!

It may have surprised the reader to learn that even his election was “rigged”, perhaps even denying the case, however, it is true none the less. The election was not influenced by Russia, but rather by the UK. The American Intelligence Media exposed how all this came about in August, 2018, in a series of You Tube videos. Who is Michael T. McKibben you ask? Michael T. McKibben is Chairman & Founder of Leader Technologies®; they invented social media in 1997, working to develop and market software to provide better leadership communications to large and small enterprises. His team is the original founder of social media that was stolen. Their patents were stolen by the CIA, and the U.S. Patent Office is controlled by the British Company Serco Inc... Michael McKibben and his company have a \$1-Trillion dollar lawsuit against the U.S. Government for stealing their patented software, and twenty years of fraudulent use of what is known as Facebook. Here is the headline citing Michael T. McKibben and Leader Technologies® suit against the U.S. Government:

**(July 24, 2017)—Citing bombshell lawyer notes of a private conversation, U.S. intelligence insiders called their plan to use stolen social networking technology to take over the Internet a “coup.” Leader Technologies and its founder and inventor, Michael McKibben, served the federal equivalent of a lien on the US government today.**

Leader CEO McKibben is the true inventor of social networking, as the timeline in the White House notice shows. Leader filed a “Miller Act Notice” on the White House at 1600 Pennsylvania Avenue this morning. The Miller Act, 40 USC 3131, requires prime contractors on government contracts to post bonds guaranteeing payment to suppliers. Leader has proven breach of contract and argues that technology suppliers to the Deep State have benefited from Leader's inventions since 2000 without compensating Leader for those benefits. All this is explained in the Miller Act Notice. Likewise, when your builder doesn't pay the subcontractors, the subs can file a mechanic's lien. The Miller Act is similar, except that the federal government

is exempt from having to sell its property to cover outstanding obligations. In lieu of a mechanic's lien, federal contracts require surety bonds.

The timeline also reveals disturbing long-time collusion of Leader's former patent attorney, James P. Chandler, with the White House ever since Bill Clinton's presidency, right through George Bush and Barack Obama. It also shows his collusion with rogue intelligence operatives in the NSA, CIA, and FBI and with IBM, among others. Perhaps this is why former executives from these agencies are speaking out against President Trump right now? They are attempting to hide this collusion?

Leader shows how the U.S. government stole its social networking inventions through Chandler, who was also Bill Clinton's intelligence advisor. The timeline also reveals a disturbing pattern of collusion among rogue elements of the FBI, NSA and CIA with private industry that included former director Robert Mueller. Mueller is now leading the ever-expanding Donald Trump Russia collusion witch hunt.

Leader says the damages are valued at least \$40 billion for historical damages, which they say is not actually close to the real number, and \$184 billion per year in ongoing annual license fees. It appears that these amounts will be paid by the surety bond holders who supply the federal government's intelligence apparatus, companies like IBM, Microsoft, Xerox, etc. This puts the payout in the coming years at well over one trillion dollars. The claim is after taxes, which means the government may generate \$20 billion or more per year in taxes from this claim as the bond holders pay out.

Former Defense Secretary Robert M. Gates said in his book '*Duty*' that this rogue White House National Security Staff operation had already engulfed the White House during his tenure. He said it had grown from 50 under Clinton to 350 under Obama—a 700% increase. It appears that the primary goal of this surveillance is blackmail. National security has only ever been the excuse to consolidate the Deep State shadow government's power. The CIA would steal patent technology applications under the pretense terms of "National Security". The UK company Serco Inc. manages the U.S. Patent Office and have prevented many inventors from receiving patents for their invention and proprietary works. Serco Inc. has as its investment bankers, none other than N.M. Rothschild's. Serco Inc. originally was RCA GB 1929, name changed in 1987 to Serco Inc... This is a huge story that has ties with the hijacked Malaysia Airlines MH370 that disappeared on March 8, 2014 and the attacks of 9/11. The Rothschild's were also the investment banker for a group of IBM designers of a super microchip controller that were headed to Beijing, China for arranging production. With the death of the team of twenty, N.M. Rothschild became the beneficiary and sole owner of the intellectual property for this microchip controller device.

The Boeing Company was fined \$15-million dollars for selling technology in the form of the QRS-11 gyro chip controller in 2006. The Boeing Co. agreed to pay \$15-million to settle federal allegations that it broke the law by selling commercial airplanes equipped with a small chip that has military applications.

It is among the largest fines a company has ever faced for violations of the Arms Control Export Act, which regulates the sale of defense products to overseas interests. The Chicago-based company also agreed to oversight requirements because settlements over previous violations did not result in full compliance.

According to the State Department charges, Boeing shipped 94 commercial jets overseas between 2000 and 2003 that carried the QRS-11 gyro chip embedded in the flight boxes. At the time, the chip, used in the guidance system of the Maverick missile, was on a list of products that required a license for foreign sales.

The chip is part of a backup system that maintains an artificial horizon for pilots, Boeing spokesman Tim Neale said Saturday. But it is much more; it is an autopilot that can be hacked!

The 2-ounce, 1-inch-diameter chip, made by a unit of BEI Technologies in Concord, Calif., sells for less than \$2,000. Boeing executives had argued that a military enemy seeking the chip would have alternatives to buying a \$60 million jet and taking apart the flight box.

But the State Department said Boeing's sales were not licensed. And 19 of the planes went to China, where the U.S. export of listed defense items is prohibited. What the press release about the Boeing fine does not reveal is that the QRS-11 gyro chip autopilot can be hijacked remotely unbeknownst to the pilot or first officer of a commercial aircraft. The autopilot uninterrupted permits hijacking of an aircraft by a remote controller external in a nearby aircraft. All commercial jet aircraft have had the QRS-11 gyro chip installed for several decades. Furthermore, this disproves that the 9/11 attacks were by Muslims. Rather they were drone-controlled through the use of the QRS-11 in the electronics compartment below the cabin deck of the airliners.

Field McConnell, retired commercial airline pilot of the web site Abel Danger has linked the Rothschild's to the 9/11 attacks. During the early 1980s, Captain McConnell's sister, Kristine Marcy, holding a very senior position in the Clinton Justice Department, helped create an internal agency known as the Senior Executive Service (SES). During this time frame, facing the threat of aircraft hijackings, the Department of Justice was challenged with the potential of an aircraft carrying high-threat federal prisoners from the state of Hawaii to the U.S. mainland for incarceration and future trial of being hijacked by prisoners, as the state of Hawaii had no federal detention facilities for this purpose.

Having many years of experience as a distinguished and decorated U.S. Air Force F-4 pilot, Captain McConnell had assisted in the earlier development of droning mothballed military aircraft for airborne fighter pilot target practice on these 'droned' pilotless aircraft targets. In response to his sister's innocent query, Captain McConnell suggested the 'droning' of these prisoner-carrying aircraft that, if hijacked, would be guided by external sources without pilot control as the cockpit was secured and the hijacked aircraft safely guided to a secure location for landing.

Out of this suggestion and offer of associated technology specifications, the famed ConAir, portrayed in a Hollywood movie of the same name, was created. At the time, Hillary Rodham Clinton served as a patent attorney at the Rose Law Firm in Little Rock, Arkansas.

Another global grassroots organization, the 'Whistleblowing Airline Employees Association', whose mission is in full support of the Departments of Transportation and Homeland Security in making the U.S. airspace 'the safest, most efficient airspace system in the world', further supports suppressed aviation whistleblowers in providing information and direction to appropriate organizations, including government and whistleblower agencies and news services.

Captain McConnell's Abel Danger organization is an affiliate/consultant of this grassroots organization, as are organizations such as 'Pilots for 9/11 Truth', Scientists for 9/11 Truth, Architects and Engineers for 9/11 Truth, and many others identified on the 'Team Members' page of their website all of which possess elements of evidence pointing to the same conclusion: "9/11 was an inside job". The reader can read more about this much larger story at the link: [themillenniumreport.com/2018/06/serco-agents-rothschild-banksters](http://themillenniumreport.com/2018/06/serco-agents-rothschild-banksters) . I should note the link is a June of 2018 report, and a very comprehensive overview of how 9/11 was executed as well as how Malaysia Air MH370 was hijacked, with its first stop at the U.S./U.K. base in Diego Garcia in the middle of the Indian Ocean! There is so much more I could share on this amazing story with the House of Rothschild right in the middle of the entire crime! But we move on now.

Leader's lead inventor, Michael McKibben, said *"many investigators from around the country have been working on this notice for a long time. He also said that "numerous prominent whistleblowers have helped fill in the pieces of the puzzle."*

McKibben said he will be making a statement in the next few days. He emphasized that President Trump had nothing to do with the theft of social networking, but his predecessors Clinton, Bush and Obama did.

*"On behalf of myself and my shareholders, I ask President Trump to correct the injustices we have suffered at the hands of an un-elected, rogue shadow government that has evidently hijacked the Internet to try and maintain their power." McKibben said all he has ever wanted was a level playing field as promised in the U.S Constitution. Instead, he has encountered only crony capitalism where the winners and losers are predetermined and the courts are rigged. "In our experience, 'Deep State shadow government' is an accurate description for what we have uncovered," he said. "I am asking the President to finally do right by me, my investors, private property rights, the U.S. Constitution and the Rule of Law."*

Mark Zuckerberg claims to have created Facebook on a weekend while at college. The facts to the contrary, Mark Zuckerberg could not write five lines of computer code even if he wanted. He was selected by the CIA to be the front person for what is known as Facebook. All the social media, along with Google, were funded by the CIA. This is a well-documented fact, as

are all the information shared in my articles. The folks at Leader Technology will tell you they spent \$10-million of start-up funding and months of work by a top team of engineers and technology experts to develop the platform of social engineering that was stolen by the U.S. CIA, and illegally co-opted patent rights, through the U.S. Patent Office, via Serco, a UK company that controls the U.S. Patent Office. The U.S. government has been stealing patent rights for close to a decade now and unbeknownst to the originators of patents, transferring them to government intelligence secrets.

I noted the point that all elections are “rigged” and confirmation of that has been revealed by American Intelligence Media, citing that even though six companies manufacture the electronic voting machines, they all use the same software for counting and reporting. Betsy Ross and Thomas Paine, (not their real names) hosts of *‘American Intelligence Media’*, point out that the software used in voting tabulation can be hacked, numbers changed, and elections thrown. A teenage computer geek can go into any precinct, using a cell phone and PC Anywhere, change the electronic voting machine counters.

Ten years ago, I watched a computer software engineer testify before a Senate hearing committee and tell the committee that any electronic voting machine can be rigged and he had demonstrated how it is done, so do not scoff at such claims. For more than a year, Hillary Clinton and the DNC have argued that she was the elected candidate; however, the Rothschild’s had concluded about a month before the election, Hillary was a problem and switched their rigging to back Donald J. Trump as the winner! In summary, ALL electronic voting is “rigged”, and the voter has no proof that his/her vote is recorded as placed by the citizen!

In my post about *“Gas Prices to Hit the Starry Heights”* I gave the reason for the coming war against Iran had to do with the Rothschild’s agenda to take control of the Iranian Central Bank. War with Iran is inevitable in the near future.

Iran is one of only two countries left in the world whose central bank is not under Rothschild control. These are **Syria**, and **Iran**. North Korea was the most recent country to surrender to the Rothschild control of money and credit. Russian President Vladimir Putin two years ago threw the Rothschild's out as controller of the Russian Central Bank. The Rothschild's and the Vatican has had Russia in their gun sights for a long time to destroy Russia. Putin knows exactly what is going on when it comes to the Rothschild's and the Vatican!

Before 9-11 there were reportedly seven countries without a Rothschild-controlled Central Bank: **Afghanistan, Iraq, Sudan, Libya, Cuba, North Korea**, and **Iran**. By 2003, however, Afghanistan and Iraq were swallowed up by the Rothschild octopus, and by 2011 Sudan and Libya were also gone. In Libya, a Rothschild bank was established in Benghazi while the country was still at war. Hillary Clinton saw to that when she was Secretary of State. Hillary has close ties to the wife of the Rothschild U.S. branch head of the House of Rothschild.

I was a history major in college, and have studied the House of Rothschild as far back as 1967, I have at least sixty books in my personal library on the “evil incarnate” House of Rothschild, and I have read at least a hundred others I never purchased for lack of money. The average person on the street knows something is wacky in our world, but they cannot put their finger on what it is! I will state unequivocally that all the world’s problems are linked to the House of Rothschild. They are Satanists in every respect as are their partners-in-crime. So to make my point about “Evil Incarnate”, this will give you a basic understanding of what the world is up against! At the end of this article, I have included a list of Rothschild-owned or controlled Central Banks.

There are two operant Crowns in England, one being Queen Elizabeth II.

Although extremely wealthy, the Queen functions largely in a ceremonial capacity and serves to deflect attention away from the other Crown, who issues her marching orders through their control of the English Parliament.

This other Crown is comprised of a committee of 12 banks headed by the Bank of England (House of Rothschild). They rule the world from the 677-acre, independent sovereign state known as The City of London, or simply 'The City.'

The City is not a part of England, just as Washington D.C., is not a part of the USA.

The City is referred to as the wealthiest square mile on earth and is presided over by a Lord Mayor who is appointed annually.

When the Queen wishes to conduct business within the City, she is met by the Lord Mayor at Temple (Templar) Bar where she requests permission to enter this private, sovereign state. She then proceeds into the City walking several paces behind the Mayor.

Her entourage may not be clothed in anything other than service uniforms.

In the nineteenth century, 90% of the world's trade was carried by British ships controlled by the Crown. The other 10% of ships had to pay commissions to the Crown simply for the privilege of using the world's oceans.

The Crown reaped billions in profits while operating under the protection of the British armed forces. This was not British commerce or British wealth, but the Crown's commerce and the Crown's wealth.

As of 1850, author **Frederic Morton** estimated the Rothschild fortune to be in excess of \$10 billion (today, the combined wealth of the banking dynasties is estimated at around \$500 trillion).

Above – The House of Rothschild Coat-of-Arms or Family Crest

Today, the bonded indebtedness of the world is held by the Crown. The aforementioned Temple Bar is the juristic arm of the Crown and holds an exclusive monopoly on global legal fraud through their Bar Association franchises. The Temple Bar is comprised of four Inns of Court.

The Bar attorneys in the United States owe their allegiance and pledge their oaths to the Crown. All Bar Associations throughout the world are signatories and franchises to the International Bar Association located at the Inns of Court of the Crown Temple.

The Inner Temple holds the legal system franchise by license that bleeds Canada and Great Britain white, while the Middle Temple has license to steal from America.

I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets.

The man who controls Britain's money supply controls the British Empire, and I control the British money supply.

-Nathan Rothschild

To have the Declaration of Independence recognized internationally, Middle Templar King George III agreed in the Treaty of Paris of 1783 to establish the legal Crown entity of the incorporated United States, referred to internally as the Crown Temple States (Colonies). States spelled with a capital letter 'S,' denotes a legal entity of the Crown.

At least five Templar Bar Attorneys under solemn oath to the Crown, signed the American Declaration of Independence. This means that both parties were agents of the Crown.

There is no lawful effect when a party signs as both the first and second parties. The Declaration was simply an internal memo circulating among private members of the Crown.

Most Americans believe that they own their own land, but they have merely purchased real estate by contract. Upon fulfillment of the contract, control of the land is transferred by Warranty Deed.

The Warranty Deed is only a 'color of title.' Color of Title is a semblance or appearance of title, but not title in fact or in law. The Warranty Deed cannot stand against the Land Patent. The Crown was granted Land Patents in North America by the King of England. Colonials rebelled at the usurious Crown taxes, and thus the Declaration of Independence was created to pacify the populace.

Another ruse used to hoodwink natural persons is by enfranchisement. Those cards in your

wallet bearing your name spelled in all capital letters means that you have been enfranchised and have the status of a corporation.

A 'juristic personality' has been created, and you have entered into multi-variant agreements that place you in an equity relationship with the Crown.

These invisible contracts include birth certificates, citizenship records, employment agreements, driver's licenses and bank accounts. It is perhaps helpful to note here that contracts do not now, nor have they ever had to be stated in writing in order to be enforceable by American judges. If it is written down, it is merely a written statement of the contract.

Tax protestors and (the coming) draft resistors trying to renounce the parts of these contracts that they now disagree with will not profit by resorting to tort law (fairness) arguments as justification. Judges will reject these lines of defense as they have no bearing on contract law jurisprudence. Tort law governs grievances where no contract law is in effect.

These private agreements/contracts that bind us will always overrule the broad general clauses of the Constitution and Bill of Rights (the Constitution being essentially a renamed enactment of English common law). The Bill of Rights is viewed by the Crown as a 'bill of benefits,' conferred on us by them in anticipation of reciprocity (taxes).

Protestors and resisters will also lose their cases by boasting of citizenship status. Citizenship is another equity agreement that we have with the Crown. And this is the very juristic contract that Federal judges will use to incarcerate them. In the words of former Supreme Court Justice Felix Frankfurter, *"Equity is brutal, but we are merely enforcing agreements."*

"The balance of Title 42, section 1981 of the Civil Rights Code states, *"citizens shall be subject to like punishment, pains, penalties, taxes, licenses, and exactions of every kind"*

What we view as citizenship, the Crown views as a juristic enrichment instrumentality. It also should be borne in mind that even cursory circulation or commercial use of Federal Reserve Notes effects an attachment of liability for the payment of the Crown's debt to the FED. This is measured by your taxable income.

And to facilitate future asset-stripping, the end of the 14th amendment includes a state of debt hypothecation of the United States, wherein all enfranchised persons (that's you) can be held personally liable for the Crown's debt.

The Crown views our participation in these contracts of commercial equity as being voluntary and that any gain accrued is taxable, as the gain wouldn't have been possible were it not for the Crown.

They view the system of interstate banks as their own property. Any profit or gain experienced by anyone with a bank account (or loan, mortgage or credit card) carries with it - as an operation of law - the identical same full force and affect as if the Crown had created the gain.

Bank accounts fall outside the umbrella of Fourth Amendment protection because a commercial contract is in effect and the Bill of Rights cannot be held to interfere with the execution of commercial contracts. The Crown also views bank account records as their own private property, pursuant to the bank contract that each of us signed and that none of us ever read.

The rare individual who actually reads the bank contract will find that they agreed to be bound by Title 26 and under section 7202 agreed not to disseminate any fraudulent tax advice. This written contract with the Crown also acknowledges that bank notes are taxable instruments of commerce.

When we initially opened a bank account, another juristic personality was created. It is this personality (income and assets) that IRS agents are excising back to the Crown through taxation.

A lot of ink is being spilled currently over Social Security. Our Social Security Administration is effectively controlled by the Crown, something that I first learned in 1998, and I have never fully recovered from the shock.

Possession of a Social Security Number is known in the Crown's lex as 'conclusive evidence' of our having accepted federal commercial benefits. This is another example of an equity relationship with the Crown.

Presenting one's Social Security Number to an employer seals our status as taxpayers, and gives rise to liability for a reciprocal quid pro quo payment of taxes to the Crown.

Through the Social Security Number we are accepting future retirement endowment benefits. Social Security is a strange animal. If you die, your spouse gets nothing, but rather, what would have gone to you is divided (forfeited) among other premium payers who haven't died yet.

But the Crown views failure to reciprocate in any of these equity attachments as an act of defilement and will proceed against us with all due prejudice.

For a person to escape the tentacles of the Crown "octopus", a thorough going study of American jurisprudence is required. One would have to be deemed a 'stranger to the public trust,' forfeit all enfranchisement benefits and close all bank accounts, among other things.

Citizenship would have to be made null and forfeit and the status of 'denizen' enacted. If there are any persons extant who have passed through this fire, I would certainly appreciate hearing from them.

## The United States of America is a corporation, ruled by the British Crown and the Vatican

The USA is, and always has been, a huge corporation ruled from abroad. Its initial name was the Virginia Company and it is owned by the British Crown and the Vatican, who receive their yearly share of the profits. The ratio of distribution is (60/40 – Vatican/UK Crown).

The US presidents are appointed CEO's (they are not elected by us!), and their allegiance is to the "board of directors," not to the American citizens. We are seen as employees of the company and voting is designed as a distraction meant to offer us the **illusion** that we have a say in all this.

"In 1606 [King] James set up the Virginia Company which was granted Royal authority to begin settlements in the province of Virginia, named after Elizabeth I, who had been popularly called the Virgin Queen. The Union Jack first flew on American soil at Jamestown in Virginia as a permanent fixture in the spring of 1607...

"The early members of the Virginia Company were aristocrats who supported the Church of England and the Royalist cause. They included Lord Southampton, the Earl of Pembroke, the Earl of Montgomery, the Earl of Salisbury, the Earl of Northampton, and Sir Francis Bacon...

"As chancellor of England, Bacon was able to persuade the king to issue the charters which enabled the new colonies to proliferate in the new world...

*"The Virginia Company members who actually settled in America included several members of the Bacon family, and friends of his who were initiates of the Rosy Cross." -- Michael Howard - **Occult Conspiracy** (quoted by Michael Tsarion);*

*"I understand from contacts in America that it is through organizations like the London Metal Exchange that profits from the Virginia Company (United States of America) are channeled back to London."-- David Icke - **The Biggest Secret**;*

*"The House of Burgesses was formed in Jamestown in 1619. It was the first representative legislative body in the American Colonies. The House passed measures designed to help the company prosper. But a serious Indian uprising in Jamestown in 1622 caused the adventurers to lose what little interest they had left. In 1623, King James decided that the company was being managed poorly. He took over the association in 1624 and dissolved the company." -- **World Book Encyclopedia**;*

"Its shareholders were Londoners, and it was distinguished from the Plymouth Company, which was chartered at the same time and composed largely of men from Plymouth.

"In 1619 the company established continental America's first true legislature, the General Assembly, which was organized bicamerally. It consisted of the governor and his council, named by the company in England, and the House of Burgesses, made up of two burgesses from each of the four boroughs and seven plantations.

"...The court ruled against the Virginia Company, which was then dissolved, with the result that Virginia was transformed into a royal colony."-- **Encyclopedia Britannica**;

"This means that all the rights which applied to the owners of the Virginia Company to the gold, silver, minerals and duties, mined and paid in America, still apply to the British families who own the United States of America and the lands of the united states of America.

"Those same percentages have been paid since 'independence' and are still being paid by the American people via their federal officials who are, in fact, officials of the Virginia Company - yes, including the President.

"...But here's yet another twist. Who owns the assets apparently owned by the Virginia Company? Answer: the Vatican."-- **David Icke - The Biggest Secret**;

"After the original 13 (again!) American colonies won their 'independence' and an 'independent' country was formed after 1783, the Virginia Company simply changed its name to... the United States of America.

"You see there are two USAs, or rather a USA and a usA. The united states of America with a lower case 'u' and 's' are the lands of the various states. These lands, as we have seen, are still

owned by the British Crown as the head of the old Virginia Company, although there is something to add about this in a moment.

"Then there is the United States of America, capital 'U' and 'S', which is the 68 square miles of land west of the Potomac River on which is built the federal capital, Washington DC and the District of Columbia. It also includes the US protectorates of Guam and Puerto Rico.

"The United States of America is not a country, it is a corporation owned by the same Brotherhood reptilian bloodlines who owned the Virginia Company, because the USA is the Virginia Company!"-- **David Icke - The Biggest Secret**;

"In 1604, a group of leading politicians, businessmen, merchants, manufacturers and bankers, met in Greenwich, then in the English county of Kent, and formed a corporation called the Virginia Company in anticipation of the imminent influx of white Europeans, mostly British at first, into the North American continent.

"Its main stockholder was King James I, and the original charter for the company was completed by April 10th 1606. This and later updates to the charter established the following:

"...The Virginia Company comprised of two branches, the London Company and the Plymouth or New England Company...The 'Pilgrims' of American historical myth were, in fact, members of the second Virginia Company branch called the New England Company. The Pilgrim Society is still a major elite grouping within the Illuminati..

"The Virginia Company owned most of the land of what we now call the USA, and any lands up to 900 miles offshore. This included Bermuda and most of what is now known as the Caribbean Islands.

"The Virginia Company (the British Crown and the bloodline families) had rights to 50%, yes 50%, of the ore of all gold and silver mined on its lands, plus percentages of other minerals and raw materials, and 5% of all profits from other ventures.

"These rights, the charters detailed, were to be passed on to all heirs of the owners of the Virginia Company and therefore continue to apply... forever!

"The controlling members of the Virginia Company who were to enjoy these rights became known as the Treasurer and Company of Adventurers and Planters of the City of London.

"After the first 21 years from the formation of the Virginia Company, all 'duties, imposts, and excises' paid on trading activities in the colonies had to be paid directly to the British Crown through the Crown treasurer...

"The lands of the Virginia Company were granted to the colonies under a Deed of Trust (on lease) and therefore they could not claim ownership of the land...

"The monarch, through his Council for the Colonies, insisted that members of the colonies impose the Christian religion on all the people, including the Native Americans...

"The criminal courts on the lands of the Virginia Company were to be operated under Admiralty Law, the law of the sea, and the civil courts under common law, the law of the land... Now, get this. All of the above still applies today!"-- **David Icke - The Biggest Secret;**

## The United States Inc.

England, Canada, Australia and many other countries are led politically by "Prime Ministers" to the Queen. In fact she is the official head of 123 commonwealth countries. America, Russia, and other countries, however, have a "President" and "Vice-President."

Usually corporations have Presidents and Vice-Presidents. What does this mean? The US Presidents rule from the "White House." The Russian Presidents also rule from the White House. The Jesuits, a large force behind the Illuminati, have their own White House as well. England is ruled from "Whitehall." The White House in Washington, D.C. is actually named for the first Roman Catholic bishop and Jesuit James White, to the colony of Maryland

*"The United States government is being ruled from the 'White House,' the government of England is being ruled from what is called 'Whitehall,' and Whitehall, like our White House, is*

*the symbol of power because the hall is like the Masonic hall, the lodge hall, the union hall.” --*  
**Jordan Maxwell - Matrix of Power;**

"For those who think America controls the roost it would do well to consider that the Queen of England is still the official head of Commonwealth (123 countries) and the official monarch of Australia and Canada along with the United Kingdom... add to that the fact that all Bush Sr. got for his two terms as president of USA is a mere knighthood of the British Empire." -- **Prash Trivedi;**

The original 13 colonies were actually called companies. Military units are also called companies. We sing patriotic songs like "the Star-Spangled Banner" but a banner is a corporate advertisement, not a flag.

You surrender with a white flag, no colors. When you get mad you show your true colors. If you just won independence in a bloody revolution with Britain would you choose the same three colors for your new US flag?

Why does "every heart ring true for the red, white, and blue?" What about the gold-fringed flag used by the military, hung at all courts, schools, and government buildings? It all has to do with the British Maritime Admiralty Law of Flags.

Barack Obama is the past CEO of the USA Corporation and the gold-fringed flags in the background stand for "ruled from abroad."

"This is also known as British Maritime (military) Law and this is why the American flag always has a gold fringe when displayed in the courts of the United States. You find the same in government buildings and federally funded schools.

"The gold fringe is a legal symbol indicating that the court is sitting under British Maritime Law and the Uniform Commercial Code - military and merchant law not common or constitutional law, under the Admiralty Law of Flags, the flag displayed gives notice of the law under which the ship (in this case the court) is regulated.

*"Anyone entering that ship (court) accepts by doing so that they are submitting to the law indicated by that flag. Judges refuse to replace the flag with one without a fringe when asked by defendants who know the score because that changes the law under which the court is sitting.*

*"If you appear in a court with a gold fringed flag your constitutional rights are suspended and you are being tried under British Maritime (military /merchant) Law."* -- **David Icke - Tales from the Time Loop;**

International Maritime Admiralty law, the law of the high seas, began in Sumeria, was perfected in Rome and continues to this day. Jordan Maxwell has explained that the way we trade commerce today is modeled after the Masons'/Templar Knights' 1,000 year old system.

Notice how regardless of whether you send a product by air, water, or land - you “ship” it. The ship pulls into its “berth” and ties to the “dock.” The Captain has to provide the port authorities with a “certificate of manifest” declaring the products he has brought.

Through a legal loophole the royals have created, US citizens are considered property of the queen under British Maritime law. Since we are born of our mother’s water, from her “birth canal,” we are thereby a maritime product, a “shipped” commodity. Our mothers were delivering a product under maritime law and that’s why we are born in a “delivery room.”

That’s why the “doc” signs your “berth” certificate, your “certificate of manifest.” You’re kept in the Maternity “Ward.” Why a ward? No other hospital areas are called wards. Prisons have wards and wardens.

The United States Corporation came about just after the civil war. The Act of 1871 was passed by congress creating a separate form of government for DC, essentially turning it into a corporation. It is incorporated in the State of Delaware, as are many institutions, including all fifty states, and most major cities.

It was decided that employees would be called “citizens.” So when you say in court or on paper, that you are a citizen of the United States, you are not a free American, but an employee of US Inc.

When you get a fine, a ticket, a bill, or get sued, you must sign in all capital letters. When you die your Masonic tombstone by law will have all capital letters to show their employee has died.

The entity that is your name in all caps is your maritime admiralty product code. Upper and lower case legally represents you, your body.

“The Uniform Commercial Code” was approved by the American Bar Association, which is a franchise, a subordinate branch, of the British legal system and its hierarchy based in London's Temple Bar (named after the Illuminati Knights Templar secret society).

As I have been writing for many years, the power that controls America is based in Britain and Europe because that is where the power is located that owns the United States Corporation. By the way, if you think it is strange that a court on dry land could be administered under Maritime Law, look at US Code, Title 18 B 7.

It says that Admiralty Jurisdiction is applicable in the following locations: (1) the high seas; (2) any American ship; (3) any lands reserved or acquired for the use of the United States, and under the exclusive or concurrent jurisdiction thereof, or any place purchased or otherwise acquired by the United States by consent of the legislature of the state.

In other words, mainland America. All this is founded on Roman law because the Illuminati have been playing this same game throughout the centuries wherever they have gone. The major politicians know that this is how things are and so do the government administrators, judges, lawyers and insider 'journalists'.

Those who realize what is happening and ask the court for the name of the true creditor or recipients of the fines imposed by the 'legal system' are always refused this information by the judge.

*"The true creditors in such cases, and the ultimate recipient of the fines, are the bankers to which the corporation 'country' is bankrupt."* -- **David Icke - Tales from the Time Loop;**

Lawyers or "barristers" have to take the Bar Association "bar" exam just as alcoholics go to the "bar," sugar-junkies eat candy "bars," and gamblers hope to get 3 "bars" on the slot machine. These all derive from the Templar's turn of the 13th century "Temple Bar" in England.

Originally the Temple Bar was literally just a bar or chain between two posts next to the Temple law courts. This soon became a huge stone gate and there were eventually eight of these gates built so the elites could restrict / control trade within the city of London.

They were taken down during 19th century, but then each stone was numbered and kept in storage until 2004 when they re-built the Temple Bar in London.

The United States corporation was created behind the screen of a 'Federal Government' when, after the manufactured 'victory' in the American War of 'Independence', the British colonies exchanged overt dictatorship from London with the far more effective covert dictatorship that has been in place ever since.

In effect, the Virginia Company, the corporation headed by the British Crown that controlled the 'former' colonies, simply changed its name to the United States and other related pseudonyms.

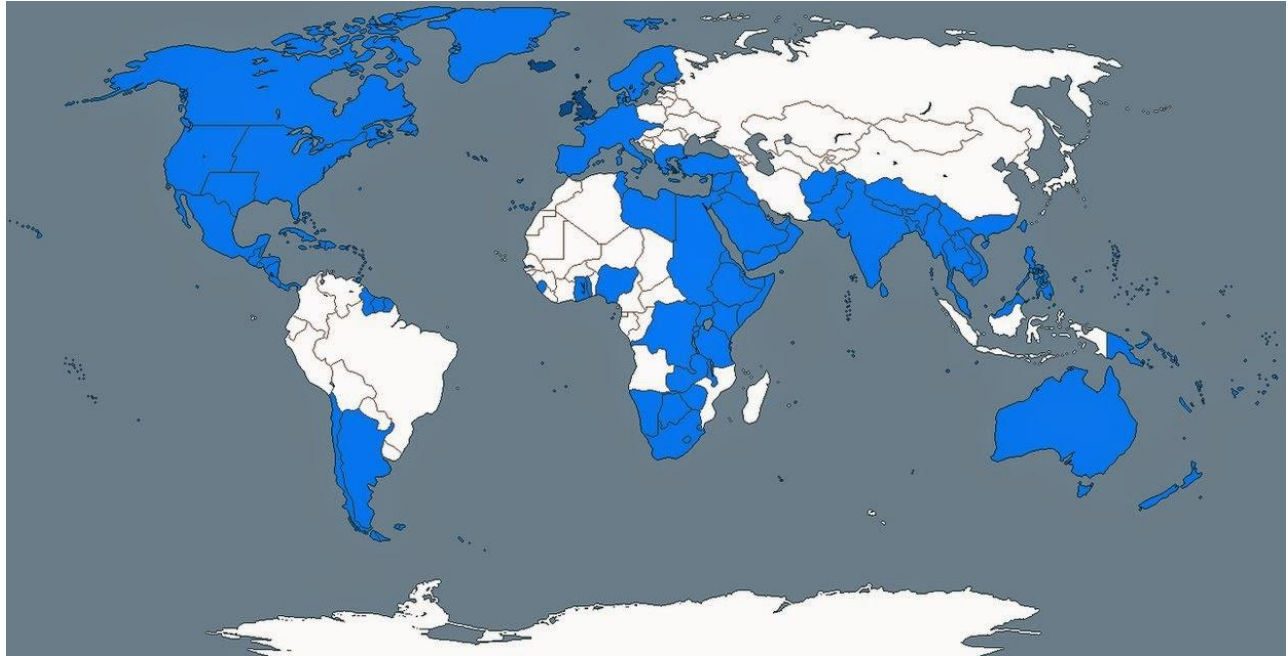

These include the US, USA, United States of America, Washington DC, District of Columbia, Federal Government and 'Feds'. The United States Corporation is based in the District of Columbia and the current president of the corporation is a man called Donald J. Trump.

He is not the president of the people or the country as they are led to believe, that's just the smokescreen. This means that Bush launched a 'war on terrorism' on behalf of a private corporation to further the goals of that corporation.

It had nothing to do with 'America' or 'Americans' because these are very different legal entities. It is the United States Corporation that owns the United States military and everything else that comes under the term 'federal'.

This includes the Federal Reserve, the 'central bank' of the United States, which is, in reality, a private bank owned by controlling stockholders (and controllers of the US Corporation) that are not even American. This is the bank from which the United States Corporation borrows 'money'." -- **David Icke - Tales from the Time Loop;**

## **The Greater British Empire Map**

## **The Shocking Truth About Your Birth Certificate**

"If you notice on the bottom of your birth certificate it says Department of Commerce. It is a property of the Department of Commerce because you are nothing more than a piece of commercial material. That's why if you're out of work you don't go to the unemployment office, you go to the Office of Human Resources, because you're just a human resource." --

**Jordan Maxwell, 1990 Slideshow Presentation on Hidden Symbols;**

You would think birth certificates would be kept on file in the Department of Health of the individual's state of birth. This is not so. Your real or long form birth certificate is sent to our State Department of Commerce, where it is recorded, and then subsequently forwarded to the national Department of Commerce within a specific time upon completed at the delivery hospital.

The Judge sits on the bench for the bank. Banks are on both sides of a river. A river bank directs the flow of the current/sea - the currency, the cash flow. The current-sea is "deposited" from bank to bank down the river.

We're just "consumers" to advertise to, just "human resources" to be used up like batteries, and they are the "social engineers," molding us "useless eaters" into wage slavery

## **Power and Wealth: The Origins of the Rothschild Family**

We are all aware of how the majority of the world's wealth is in the hand of a few influential families. These few families or the one percent of the world have been responsible for every major event taking place in every corner of the world.

The Rothschild Family is considered as the most powerful and wealthiest of the entire tiny minority controlling the world's wealth, influencing global politics, inciting wars and articulating most of the world's financial crisis.

The Rothschild family has its origins in the 18th century, Germany. Mayer Amschel Rothschild, the founding member of the family, was a court Jew, a term referring to Jewish bankers who dealt primarily with the nobility.

He went on to establish a banking family of international significance, stretching beyond international borders to every major European power. The family has been in control of the world's wealth for centuries and their influence reaching far beyond every echelon of power.

In this article, we will take a look at this influential family and try to understand who they really are, as opposed to who they claim to be.

## **Khazarian Ashkenazi Decedents**

From the founder of the Rothschild family to the ones in our present day, all claim to be of Jewish ancestry — a claim that has been instrumental in their elevation as the most powerful family in the world.

However, they have simply adapted to the changing social dynamics in order to benefit themselves.

Before claiming to be Jewish, the ancestors of Rothschild were Khazars, hailing from the Kingdom of Khazaria, the most powerful polity during the 7th century.

During those times, religious affiliations held huge significance in terms of political power and foreign relations. Khazars, who practiced a Turkic form of religion known as Tengrism, found it more beneficial to convert to Judaism, which resulted in the mass religious conversions of the Khazarian elite or nobility.

During the 10th century, their major alliances had started to collapse, without support and constant conflict eroded the power of the kingdom and before its eventual collapse, the ruling

elite migrated to Europe under the guise of Judaism.

Hence, a majority of the people today who claim to be Jews were, in fact, Khazars or Ashkenazi Jews. Despite their Asiatic Mongolian genes, they could claim their birthright over the land of Israel, despite their original homeland being what is now known as Georgia.

This deception allowed them to enter the Jewish circle and enjoy the benefits associated with the ethno-religious and cultural group. Remember, Jesus Christ even referred to them as not being Jews in Revelation 2:9 and 3:9. He called them the “Synagogue of Satan”. ***“I know thy works, and tribulation, and poverty, (but thou art rich) and I know the blasphemy of them which say they are Jews, and are not, but are the synagogue of Satan. –(Revelation 2:9). “Behold, I will make them of the synagogue of Satan, which say they are Jews, and are not, but do lie; behold, I will make them to come and worship before thy feet, and to know that I have loved thee.” –(Revelation 3:9).***

They used the influence to climb up the social ladder in monarchical Europe, with some even becoming nobles and starting their own dynasties, eventually acquiring political power in more than one kingdom.

## The Rothschild Family

The Ashkenazi Jews had opted for the centuries old practice of changing their family and identity in order to present them as part of the dominant race in the country they resided.

This is because minorities usually faced persecution or marginalization at the hand of the majority, which would restrict their social mobility.

This allowed them to obtain influential positions in their respective countries and work towards their hidden agendas. Rothschild is the perfect example of such family that elevated themselves through deception and other unscrupulous means.

The Rothschild family took this practice to another level. They would sire many undocumented offspring, who would then be placed into various positions of power and would help the main family in their ambitions without raising suspicions of their ulterior motives.

This was started by the first person to take the family name Rothschild. Although it is known that he had five sons, who went on to establish an international banking network in five different nations, he also had another son, the sixth member of the original Rothschild family, who was not officially documented.

## How the Rothschild's became the masters of our planet

Before I conclude the first part of this article, I want to make sure that everyone understand

that the point of this article is not to single out a person or a race of people, but rather inform the people of the Rothschild family and its influence on the world as we know it and how they profited from the suffering of millions.

Now that we understand the origins of the Rothschild family, we will continue to talk about the influence of the family in shaping the world and profiting from the suffering of millions, but more importantly, **masterminding almost every major event that has occurred since the 18th century.**

## **Power and Wealth: The Timeline of the Rothschild Family (1740s – 1770s)**

In the power and wealth series, we will try to dissect historical events and try to understand the extent of influence exerted on the global events by the Rothschild family, the single most powerful family in the history of human civilization.

### **Mayer Amschel Rothschild**

In 1744, Mayer Amschel Bauer was born in the free city of Frankfurt, Germany, to an Ashkenazi Jew who ran a counting house and also worked as a money exchanger.

On the entrance door of his counting house hung a red hexagram sign; this would translate numerically and geometrically into the number **666**.

Interesting, the same sign ended up on the Israeli flag around two hundred years later, a late evidence of the extent of Rothschild influence over the State of Israel.

Around fifteen years later, Mayer Rothschild started working for a bank owned by the Oppenheimer family in Hanover, Germany.

During this period, he proved himself to have a natural inclination towards the field of finance and his success resulted in his becoming a junior partner at the bank. During his time at the bank, he met General von Estorff, with whom he became acquainted over the course of his tenure at the bank.

Following the death of his father, he returned to Frankfurt in order to take over his father's business. It was during this time that he changed his last name from Bauer to Rothschild when he realized the significance of the red sign. In German, red is translated as Rot, whereas Schild is translated as Sign.

Soon after Mayer discovered that his friend General von Estorff was closely associated with one of the richest royal houses in Europe, Hesse-Hanau.

Prince William IX had acquired his wealth and elevated his house by offering his army as mercenaries for hire to foreign countries for huge sums of money, a practice that still continues to this day in the form of peacekeeping missions.

He decided to re-acquaint with the General on the pretext of selling valuable trinkets and coins at an irresistibly discounted price. As he had anticipated, he was introduced to the Prince, who pleased at the dealings and allowed him to enter his circle of associates.

The initial investment proved to be extremely lucrative, as he would be conducting business with not just the Prince but also the members of the royal court.

He soon realized the advantages of dealing with governments rather than individuals and soon became a court Jew, a person involved in providing loans to the members of the court or nobility.

## **The Advent of Illuminati**

In 1769, Prince Williams gave his permission to hang a sign on the Mayer's official premises reading, "M.A. Rothschild, by appointment court factor to his serene highness, Prince William of Hanau." As an American soldier during the 'Cold War' era, I visited the Rothschild castle many times from 1957-1959. At the time, I was station just up the road in Giessen, West Germany. The distance is about 45 miles.

A year later, he came up with an idea for an organization, which went on to become the infamous Illuminati. The organization was placed under the authority of another Ashkenazi Jew, Adam Weishaupt.

Weishaupt, although, a Jewish descendant, he had become a Roman Catholic Jesuit in his outwardly persona. The Illuminati was based on the teaching of the Talmud – the teachings associated with the Rabbinical Jews. The term Illuminati means the keepers of the light. In today's language parlance, it is a code word for a "Jesuit"!

During this time, Mayer married Gutle Schnaper, the daughter of an influential and respected merchant, Wolf Salomon Schnaper.

And soon had his second child and his eldest son, Amschel Mayer Rothschild, who along with his four other brothers, proved to be instrumental in the elevation of the Rothschild family.

In 1776, Weishaupt officially established the Illuminati, which came into being with the sole purpose of dividing the entire non-Jewish populace or goyim through economic, social, political, and religious intrigue.

The organization fueled conflicts among the goyim and then provided them with arms and

weapons, and then watched as they would fight amongst themselves, destroying governments, religious institutions and eventually eroded their own power.

The same year, Weishaupt managed to infiltrate the Continental Order of Freemasons with the Illuminati doctrine and established their secret headquarters in the lodges of the Grand Orient.

All of this was masterminded and funded by Mayer Amschel Rothschild.

He then went on to recruit thousands of intellectuals with varying expertise. They were assigned the following tasks:

Use whatever means necessary to acquire control over officials at high ranking position in the government and other influential areas. Influence the faculties of higher education institutions to single out students exhibiting exceptional mental abilities, as well as belonging to wealthy, influential and connected families and influence them to opt for special training in internationalism, rather than allowing them to develop nationalistic ideals. Such training was funded through scholarships by the Illuminati. Direct all those under the influence of Illuminati, including students, to act as agents and lobby for the realization of the doctrines of Illuminati, that is to bring about one-world order and the destruction of the governments and religious institutions they were appointed or elected to serve. Lastly, to obtain absolute control over the press to propagate the masses towards a one-world order.

## **Power and Wealth: The Timeline of the Rothschild Family (1780s – 1810s)**

In 1784, Xavier Zwack, an associate of Weishaupt wrote a book to incite the French Revolution under the directives of Weishaupt.

The book was sent to Maximilian by courier from Frankfurt to Paris. However, en route, the courier was struck and the book detailing the plan was discovered by the police and brought to the attention of the Bavarian authorities.

As a result, the Bavarian authorities initiated a raid against the Masonic lodges, along with the homes of all the high ranking members.

By 1785, the Illuminati were banned and all of the Bavarian lodges of the Grand Orient were closed down. Around the same time, Mayer Rothschild moved with his family to a five story house in Frankfurt, which he shared with the Schiff family.

## **The Rise of the Rothschild's**

In 1786, the Bavarian government tried to warn all of the heads of states and churches throughout Europe by publishing the details of the Illuminati plot in a document entitled, *"The*

*Original Writings of the Order and Sect of the Illuminati.”*

However, the warnings were ignored.

Despite the warning issued by the Bavarian government, the French Revolution began in 1789 and concluded in 1799 with the enactment of a new constitution and various laws that expelled the Church's influence. This was literally a banker's dream come true.

## The Expansion

In 1790, Mayer Amschel is quoted as saying:

***“Let me issue and control a nation's money and I care not who writes the laws.”***

A year later, the Rothschild family acquired control over a nation's money, when Alexander Hamilton, an agent of the family in George Washington's cabinet, set up a central bank, the First Bank of the United States.

In 1796, Amschel Mayer Rothschild, married Eva Hanau.

In 1798, John Robison published a book: **“Proofs of a Conspiracy Against All the Religions and Governments of Europe Carried on in the Secret Meetings of Freemasons, Illuminati and Reading Societies.”**

The book gave details of the entire Rothschild Illuminati plot from the first hand experiences Robison had, who had been invited by Weishaupt to join the secret society.

After turning 21, Nathan Mayer Rothschild, the third son of Mayer, leaves Frankfurt with large sums of money and established a bank in London. In 1800, Salomon Mayer married Caroline Stern.

In 1806, Napoleon stated that he intended to remove the house of Hess-Cassel from their position of power and removed their name from the list of powers.

This forced Prince William IX to flee Germany for Denmark, where he entrusted his fortune, valued around \$3,000,000 to Mayer Amschel for safekeeping.

The same year, Nathan Mayer got married to Hannah Barent Cohen, the daughter of a wealthy merchant from London and two years later had his first son, Lionel Nathan de Rothschild.

In 1820, Salomon Mayer was sent to Vienna and established the M.von Rothschild.

## The War of 1812

In 1811, the charter for the Rothschild's Bank in United States expired and the congress voted against its renewal.

To this Nathan Mayer was quoted as:

*"Either the application for renewal of the charter is granted, or the United States will find itself involved in a most disastrous war."*

However, the United States ignored the warning, resulting in Nathan to issue another threat:  
*"Teach those impudent Americans a lesson. Bring them back to colonial status."*

In 1812, under the directive of Nathan Mayer and backed by the Rothschild wealth, the British declared war on the United States.

The objective was to cause the United States to accumulate a huge amount of debt fighting the war, which would cause them to surrender to the wills of the Rothschild, which the family could leverage to renew the charter for the First Bank of the United States.

The same year, Mayer Amschel Rothschild passed away. His will dictated specific laws that the House of Rothschild was to follow:

All positions of significance in the business can only be held by a family member;  
Only men would be allowed to participate in the business, including the sixth secret son.

Another thing to note was that Mayer Amschel also had five daughters, who spread the Rothschild dynasty without the name of the money, allowing them to operate without drawing attention that comes from the name Rothschild.

According to Jewish tradition, children from a non-Jewish father and a Jewish mother are considered as solely Jewish. The family members were to only marry their first and second cousins, which would allow them to preserve the family fortune and in the process, its influence.

Furthermore, no public records were to be released regarding the family's assets and the eldest son would, by default, become the head of the family, unless the majority of the family would agree to a different nominee.

Thus, Amschel Mayer Rothschild was made the head of the family.

## **Power and Wealth: The Timeline of the Rothschild Family (1810s)**

Following the death of Mayer Amschel Rothschild, Amschel Mayer was elected as the head of the family, according to the bylaws dictated in the will of Mayer Amschel.

The same year, James (Jacob) Mayer traveled to Paris to establish the French division of the family bank, de Rothschild Frères.

According to the Jewish Encyclopedia, 1905 edition, Volume 10, Mayer Amschel hid Prince William IX's wealth in wine casks and successfully evaded Napoleon's soldiers when they invaded Germany and later Prince William returned to his official position as an electorate of Germany.

However, it is believed Rothschild never returned the money to Prince William. Instead, Nathan Mayer invested the entire, \$3,000,000 into gold brought back by the East India Company.

## **Fueling Both Sides of the Conflict**

In 1815, all five of the Rothschild brothers devised a plan to profit from the ongoing war in Europe. The gold was supplied to both of the primary parties involved in the conflict, Duke of Wellington and Napoleon.

Nathan who operated in England funded Wellington's army, whereas James, who operated out of France, funded Napoleon's army.

**This is where they began their policy of funding all sides of any war, as wars provided them with the opportunity to fund risk free debt.**

The family used their unprecedented banking system that lay across the entire Europe and created an unrivaled postal service network of secret routes. This allowed them to acquire vital information before it would become public and maintain an upper hand on all of the current events.

Moreover, due to their influence, their couriers were the only people allowed to bypass the English and French blockades with ease.

This allowed Nathan Mayer to be informed of the state of the war before anyone and used this information to amass unprecedented wealth in the Stock Exchange.

For example, **Nathan was aware of the outcome of the Battle of Waterloo a full day before Wellington himself.**

## **Disinformation and Market Manipulation**

At that time, the British bonds were referred to as consuls, which were traded on the floor of the stock exchange. Nathan being aware of the outcome of the war started selling the consuls.

The selling on the market was taken as a sign of the British losing the battle, resulting in widespread panic in the markets and a huge panic sell off was initiated.

Nathan, after initiating the selloff, started discretely accumulating the consuls. By the time, word came of the British victory, the market rose up even higher than its previous levels, leaving Nathan with a return of approximately 20:1 on his investment.

**Following Napoleon's defeat, the Rothschild family had acquired complete control over the British economy, the financial center at that time and forced the government to establish a new Bank of England, which Nathan controlled.**

In 1815, Nathan Mayer made the following statement:

***"I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets. The man who controls Britain's money supply controls the British Empire, and I control the British money supply."***

He went on to brag that in the meager seventeen years he spent in England, he multiplied the £20,000 capital given to him by his father, by around 2,500 times to around £50 million pounds.

## **The Age of the Rothschild Modern Banking System**

The Rothschild family used their influence over the Bank of England to replace the previous system of shipping physical gold and introduced the system of derivative or paper debts and credits — **that's how the banking system that we know today was born.**

By the end of the 19th century, the period known as the, "Age of the Rothschild," the family controlled around half of the world's wealth.

## **Concert of Europe**

The "Concert of Europe," the name given to the series of international meetings conducted through the Congress of Vienna, was established in the year 1814 and was to serve as a tool for the Rothschild to exert complete control over the civilized world.

Since a majority of the European powers were in debt to the Rothschild, the congress was a way to leverage the debt to influence international politics. However, the Russians had yet to succumb to the Rothschild's will and this thwarted their plan.

Enraged, Nathan Mayer swore that either he or his descendants would destroy the Tsar Alexander's family, which proved to be true when around a century later, Rothschild funded the Bolsheviks movement, which indeed acted upon the promise.

This fact is extremely important and relevant in understanding the Jesuit-Vatican/Rothschild hatred and agenda to destroy the Russian state and the Orthodox Catholic Church.

## **Power and Wealth: The Timeline of the Rothschild Family (1840s – 1860s)**

In the late 1840s, James Mayer used his influence to win the contract for the first major railway line in France.

It was named the Chemin De Fer Du Nord, which was later connected with the Austrian rail network, built by Solomon Mayer. The family's involvement in the Europe transport network increased their power substantially, controlling the money, precious metals, and the transport of the entire continent.

In 1847, Nathan's son, Lionel Rothschild, was elected to the parliamentary seat from the city of London. At that time, there was a requirement for every parliamentarian to take an oath as a Christian, which was refused by Lionel.

Interestingly, he was not disqualified instead the parliamentary seat remained vacant for eleven years until new oaths were introduced, allowing people of different faiths to take up elective position in the government.

For eleven years, the constituents who voted for Lionel didn't have representation in the parliament, talk about power!

In 1849, Gittle Schnapper, wife of Mayer Amschel died. Before her death, she allegedly said: *"If my sons did not want wars, there would be none."*

By 1852, N.M. Rothschild & Sons had begun refining gold and silver for their banking network and other customers around the world.

A year later, Nathaniel Rothschild, Nathan's son, made the family's first investment in the wine industry when he acquired the Château Brane Mouton and renamed it the Chateau Mouton Rothschild.

In 1858, Lionel Rothschild becomes the first Jew to become a member of the British parliament.

## **The North American Struggle against the Rothschild's**

Three years later, in 1861, the United States was embroiled in a civil war and the funds were needed to fight the southern states.

Since, President Jackson had expelled Rothschild controlled central bank, their influence remained in the form of splintered private banks throughout the country.

When President Lincoln approached the banks for a loan, he was offered the money on outrageously large 30-34% interest rates, which would have meant the country being in the debt of the Rothschild's for decades.

As a result, President Lincoln introduced the country's first paper currency, the greenback, which was not backed by anything but the US government's good faith credibility.

This allowed Lincoln to fund the Civil War, abolish slavery, infuse much needed funds without increasing debt and most importantly, revolutionized the US economy, all the while resisting the Rothschild's.

In the same year, The Times of London published a story regarding the US initiative. According to the story, the North American Republic employed a clever financial policy, which allowed them to furnish their own money without incurring a cost.

The policy allowed them to mint new money without acquiring any debts; instead, it could be used to pay off all of its current debts, threatening the current world order.

Unless they are impeded, they will become prosperous beyond precedent. Hence, this nonconforming government must be eradicated or it will bring about the destruction of every monarchy on the globe.

In 1863, the only other government to resist the influence of the Rothschild's, the Russian Empire ruled by the Tsar of Russia, stated that if any of the European powers actively intervened in the American Civil War, Russia would respond by declaring war and would side with the new republic.

The assertion by the Tsar was substantiated when part of the pacific Russian fleet was sent to New York and San Francisco, deterring Rothschild's from meddling in the US affairs.

Despite the defeat at the hands of President Lincoln, John D. Rockefeller, an ally to the Rothschild, went on to establish Standard Oil, a fully integrated oil company, eventually becoming the largest oil refiner in the world.

During 1865, President Lincoln gave the following statement to the congress:

*"I have two great enemies, the Southern Army in front of me, and the financial institutions in the rear. Of the two, the one in my rear is my greatest foe."*

He was assassinated at the order of the Rothschild's in the same year and the lone assassin myth was born.

This modus operandi was employed ever since by the Rothschild's to eliminate those who opposed them.

## US Infiltration

Jacob Schiff, another Rothschild, was sent to the US after getting trained at the London Bank to increase the family's influence in the U.S. His primary objective was to establish a banking branch of the Rothschild banking dynasty and ultimately seize control of the US money supply.

Secondary objectives are said to include seeking out professionals willing to further the agendas of the Illuminati and placing them into influential positions in the federal government, Supreme Court, Congress and all other important federal agencies.

Creating disorder in the country by inciting conflicts between the minority groups in the country such as the African American communities. And lastly, creating a movement against the main religion in the country, i.e. Christianity.

In 1868, James Mayer Rothschild died, making him the last of Mayer Amschel Rothschild's sons to depart, leaving an entire continent at the whims of one family, while their influencing constantly grew throughout the world.

On June 4, 1963, a virtually unknown Presidential decree, Executive Order 11,110, was signed with the authority to basically strip the Rothschild Bank of its power to loan money to the United States Federal Government at interest.

With the stroke of a pen, President Kennedy declared that the privately owned Rothschild Federal Reserve Bank would soon be out of business. The Christian Law Fellowship has exhaustively researched this matter through the Federal Register and Library of Congress.

**We can now safely conclude that this Executive Order has never been repealed, amended, or superseded by any subsequent Executive Order. In simple terms, it is still valid.**

When President John Fitzgerald Kennedy signed this Order, it returned to the United States federal government, specifically the Treasury Department, the Constitutional power to create and issue currency - money – without going through the privately owned Rothschild Federal Reserve Bank.

## **The Federal Reserve**

A myth that all Americans live with is the charade known as the "Federal Reserve." It comes as a shock to many to discover that it is not an agency of the United States Government.

The name "Federal Reserve Bank" was designed to deceive, and it still does. It is not federal, nor is it owned by the government. It is privately owned.

It pays its own postage like any other corporation. Its employees are not in civil service. Its physical property is held under private deeds, and is subject to local taxation. Government property, as you know, is not.

It is an engine that has created private wealth that is unimaginable, even to the most financially sophisticated.

It has enabled an imperial elite to manipulate our economy for its own agenda and enlisted the government itself as its enforcer. It controls the times, dictates business, and affects our homes and practically everything in which we are interested.

It takes powerful force to maintain an empire, and this one is no different. The concerns of the leadership of the "Federal Reserve" and its secretive international benefactors appear to go well beyond currency and interest rates.

## **Executive Order 11,110**

President Kennedy's Executive Order 11,110 gave the Treasury Department the explicit

authority: “to issue silver certificates against any silver bullion, silver, or standard silver dollars in the Treasury.”

This means that for every ounce of silver in the U.S. Treasury’s vault, the government could introduce new money into circulation based on the silver bullion physically held there.

As a result, more than \$4 billion in United States Notes were brought into circulation in \$2 and \$5 denominations.

\$10 and \$20 United States Notes were never circulated but were being printed by the Treasury Department when Kennedy was assassinated.

It appears obvious that President Kennedy knew the Federal Reserve Notes being used as the purported legal currency were contrary to the Constitution of the United States of America.

“United States Notes” were issued as an interest-free and debt-free currency backed by silver reserves in the U.S. Treasury.

**Jacob Rothschild**

We compared a “Federal Reserve Note” issued from the private central bank of the United States (the Federal Reserve Bank a.k.a. Federal Reserve System), with a “United States Note” from the U.S. Treasury issued by President Kennedy’s Executive Order. I have somewhere in collection two of the “\$2” denominated U.S. Notes. I used them as page markers in one of my books on the Federal Reserve System.

They almost look alike, except one says “Federal Reserve Note” on the top while the other says “United States Note”. Also, the Federal Reserve Note has a green seal and serial number while the United States Note has a red seal and serial number.

President Kennedy was assassinated on November 22, 1963 and the United States Notes he had issued were immediately taken out of circulation. Federal Reserve Notes continued to serve as the legal currency of the nation.

According to the United States Secret Service, 99% of all U.S. paper “currency” circulating in 1999 is Federal Reserve Notes.

Kennedy knew that if the silver-backed United States Notes were widely circulated, they would have eliminated the demand for Federal Reserve Notes. This is a very simple matter of economics. The USN was backed by silver and the FRN was not backed by anything of intrinsic value.

Executive Order 11,110 should have prevented the national debt from reaching its current level (virtually all of the nearly \$21.2+ trillion in federal debt has been created since 1963, if LBJ or any subsequent President were to enforce it).

It would have almost immediately given the U.S. Government the ability to repay its debt without going to the private Federal Reserve Banks and being charged interest to create new “money”. Some today speculate that this is what President Trump plans to do. I doubt that seriously based upon what President Trump owes to the Rothschild banks. He walks a tight rope here knowing what happened to President Lincoln and President Kennedy.

**Executive Order 11,110 gave the U.S.A. the ability to, once again, create its own money backed by silver and realm value worth something.**

Again, according to my own research, just five months after Kennedy was assassinated, no more of the Series 1958 “Silver Certificates” were issued either, and they were subsequently removed from circulation.

Perhaps the assassination of JFK was a warning to all future presidents not to interfere with the private Rothschild Federal Reserve’s control over the creation of money.

It seems very apparent that President Kennedy challenged the “**powers that exist behind U.S. and world finance**”.

On November 22, 1963, JFK was shot dead in Dallas, Texas, in extremely strange circumstances. Phyllis Hall, a nurse who was part of desperate attempts to save the life of President John F Kennedy after he was assassinated has claimed he was shot by a “mystery bullet.”

There is also strong evidence involving Lyndon B. Johnson (The following USA President) in the assassination conspiracy.

The business publication *'Investors Business Weekly'* investigated and revealed August 15<sup>th</sup>, 2018 who it was buying the U.S. debt being added by President Donald J. Trump since the passage of the budget in 2017. It appears the bulk of the debt is being purchased by Rothschild banks in the Tax Haven countries of Bermuda, Nassau, Virgin Islands, and other Rothschild assets in the Caribbean Islands.

## List of US Presidents Murdered by the Rothschild Banking Cartel

### Lincoln's Private War: The Trail of Blood

**Abraham Lincoln**

Abraham Lincoln worked valiantly to prevent the Rothschild's attempts to involve themselves in financing the Civil War.

Interestingly, it was the Czar of Russia who provided the needed assistance against the British and French, who were among the driving forces behind the secession of the South and her subsequent financing.

Russia intervened by providing naval forces for the Union blockade of the South in European waters, and by letting both countries know that if they attempted to join the Confederacy with military forces, they would also have to go to war with Russia.

The Rothschild interests did succeed, through their agent Treasury Secretary Salmon P. Chase,

to force a bill (the National Banking Act) through Congress creating a federally chartered central bank that had the power to issue U.S. Bank Notes.

Afterward, Lincoln warned the American people:

*"The money power preys upon the nation in time of peace and conspires against it in times of adversity. It is more despotic than monarchy, more insolent than autocracy, more selfish than bureaucracy. I see in the near future a crisis approaching that unnerves me, and causes me to tremble for the safety of our country. Corporations have been enthroned, an era of corruption will follow, and the money power of the country will endeavor to prolong its reign by working upon the prejudices of the people, until the wealth is aggregated in a few hands, and the republic is destroyed."*

Lincoln continued to fight against the central bank, and some now believe that it was his anticipated success in influencing Congress to limit the life of the Bank of the United States to just the war years that was the motivating factor behind his assassination.

## **The Lone Assassin Myth is Born**

Modern researchers have uncovered evidence of a massive conspiracy that links the following parties to the Bank of Rothschild: Lincoln's Secretary of War Edwin Stanton, John Wilkes Booth, his eight co-conspirators, and over seventy government officials and businessmen involved in the conspiracy.

When Booth's diary was recovered by Stanton's troops, it was delivered to Stanton. When it was later produced during the investigation, eighteen pages had been ripped out.

These pages, containing the aforementioned names, were later found in the attic of one of Stanton's descendants.

From Booth's trunk, a coded message was found that linked him directly to Judah P. Benjamin, the Civil War campaign manager in the South for the House of Rothschild. When the war ended, the key to the code was found in Benjamin's possession.

The assassin, portrayed as a crazed lone gunman with a few radical friends, escaped by way of the only bridge in Washington not guarded by Stanton's troops.

"Booth" was located hiding in a barn near Port Royal, Virginia, three days after escaping from Washington. He was shot by a soldier named Boston Corbett, who fired without orders.

Whether or not the man killed was Booth is still a matter of contention, but the fact remains that whoever it was, he had no chance to identify himself.

It was Secretary of War Edwin Stanton who made the final identification. Some now believe

that a dupe was used and that the real John Wilkes Booth escaped with Stanton's assistance. He escaped through Canada to Europe, and reportedly served in the Vatican Swiss Guards.

Mary Todd Lincoln, upon hearing of her husband's death, began screaming, "Oh, that dreadful house!" Earlier historians felt that this spontaneous utterance referred to the White House.

Some now believe it may have been directed to Thomas W. House, a gun runner, financier, and agent of the Rothschild's during the Civil War, who was linked to the anti-Lincoln, pro-banker interests.

**Andrew Jackson**

Andrew Jackson was the first President from west of the Appalachians. He was unique for the times in being elected by the voters, without the direct support of a recognized political organization.

He vetoed the renewal of the charter for the Bank of the United States on July 10, 1832.

In 1835, President Andrew Jackson declared his disdain for the international bankers:

*"You are a den of vipers. I intend to rout you out, and by the Eternal God I will rout you out. If the people only understood the rank injustice of our money and banking system, there would be a revolution before morning."*

There followed an (unsuccessful) assassination attempt on President Jackson's life. Jackson had told his vice president, Martin Van Buren, *"The bank, Mr. Van Buren, is trying to kill me."*

Was this the beginning of a pattern of intrigue that would plague the White House itself over the coming decades? Was his (and Lincoln's) death related by an invisible thread to the international bankers?

I have heard radio reports that President Trump has Andrew Jackson's portrait in the Oval Office, some say as a reminder that President Trump plans to eliminate the Federal Reserve System. Personally, knowing what we know concerning the financial relations President Trump has with Rothschild financial institutions, I think there are other reasons for the Jackson portrait in the Oval Office.

**James Garfield**

President James Abram Garfield, our 20th President, had previously been Chairman of the House Committee on Appropriations and was an expert on fiscal matters.

(Upon his election, among other things, he appointed an unpopular collector of customs at New York, whereupon the two Senators from New York - Roscoe Conkling and Thomas Platt - resigned their seats).

President Garfield openly declared that whoever controls the supply of currency would control the business and activities of all the people.

After only four months in office, President Garfield was shot at a railroad station on July 2, 1881. Another coincidence.

## **The Trail of Blood Continues**

In the 70's and 80's, Congressman Larry P. McDonald spearheaded efforts to expose the hidden holdings and intentions of the international money interests.

His efforts ended on August 31, 1983, when he was killed when Korean Airlines 007 was "accidentally" shot down in Soviet airspace. A strange coincidence, it would seem.

Senator John Heinz and former Senator John Tower had served on powerful Senate banking and finance committees and were outspoken critics of the Federal Reserve and the Eastern Establishment.

On April 4, 1991, Senator John Heinz was killed in a plane crash near Philadelphia. On the next day, April 5, 1991, former Senator John Tower was also killed in a plane crash. The coincidences seem to mount.

Attempts to just audit the Federal Reserve continue to meet with failure. It is virtually impossible to muster support for any issue that has the benefit of a media blackout.

For many years, numerous authors have attempted to sound the alarm that there exists a hidden "shadow government" that actually rules America. Eustace Mullins, William Greider, G. Edward Griffin, former congressman from Texas, Ron Paul, are late 20<sup>th</sup> century experts who wrote on the Federal Reserve System. A number of recent authors have written books on the Fed but are only offered as Amazon Kindle reads.

The information that I have shared in recent posts should be adequate proof that the 45<sup>th</sup> President of the USA, should be suspect in his actions relative to the fact he has 16 loans with 11 banks, and where each loan is \$50-million or more; banks and financial institutions that are either directly owned or controlled by the House of Rothschild. The Rothschild's are creditors holding the paper on other Trump family properties, including 666 Fifth Avenue, New York City. Kushner Companies bought the property for \$1.8 billion in 2007, at the time the most ever paid for a single office building in the U.S. What's 666 Fifth Avenue?

It's a 41-story tower in Midtown Manhattan that was supposed to be the crown jewel of the Kushner Companies real estate empire. The Kushner's bought it in 2007 for \$1.8 billion, and at the time it was the most expensive real estate deal in New York City's history.

The purchase was orchestrated by a young Jared Kushner, who had taken over the company in 2005 when he father Charles Kushner, the company's founder, was sentenced to jail in 2005 for

tax evasion and witness tampering. Jared Kushner, now a senior adviser to President Trump and the husband of his daughter Ivanka, closed the deal on his 26th birthday in 2007.

### **Why is it in the news?**

The short answer is that it's bleeding money. The purchase was ill-timed, as the 2008 economic collapse dealt a body blow to the real estate industry generally and 666 Fifth Avenue specifically.

Jared Kushner wound up selling off bits and pieces of the property to keep the family company afloat. Now, however, the bill is fast approaching, and the Kushners' dream of turning 666 Fifth Avenue into an opulent tower designed by the late architect Zaha Hadid is dependent on their finding a partner -- soon.

### **Before we go any further...that's an unfortunate number for a building, is it not?**

It is, yes, which is why the Kushners want to call their hoped-for new building 660 Fifth Ave.

### **Is Jared still involved with the building?**

No, because he sold off his stake earlier this year to avoid worries about conflicts of interest. Before that, though, he was searching the globe for a new business partner to help Kushner Companies stem the bleeding and build the new tower.

### **Did he find a partner?**

The Chinese company Anbang seemed interested. Anbang is closely tied to the Chinese leadership, however, and media speculation surrounding the partnership between the two companies ultimately scuttled the deal, according to reports.

### **Does this tie into the Russia investigation?**

It might. When he talks to Congress about the investigation, Kushner is expected to be asked about whether his meeting with shady Russian banker Sergey Gorkov had anything to do with the search for buyers for the property, according to NBC News.

Trump biographer Timothy L. O'Brien has also speculated that Kushner might have been looking for help from the Russians to keep the building afloat. "The prospect that he may have been jockeying for Chinese or Russian financiers to bail out him and his family from a potentially disastrous investment at 666 Fifth Avenue presents complex but obvious conflicts of interest as well as the prospect of injudicious or self-serving White House policymaking," he wrote in Bloomberg View last month.

### **Is there evidence that the Gorkov meeting had anything to do with 666 Fifth Avenue?**

If there is, it hasn't been made public. Although individual Russian investors have bought up New York real estate in recent years, U.S. sanctions on the country have made that harder. So if Kushner was looking to Moscow to potentially help out his family's business, he would be taking an enormous risk with potentially zero upside and a whole lot of downside.

### **How much is this costing the Kushners?**

A lot. Jared Kushner was able to navigate the worst of economic collapse and sold off a lot of the building in order to generate a needed cash windfall. He sold 49.5 percent of its office space to the massive real estate company Vornado and its valuable real estate space on Fifth Avenue. That, along with some loans, was able to stave off calamity. But soon the bill will be coming due.

The company's \$1.2 billion mortgage will need to be paid in two years, according to press accounts. Thirty percent of the building remains vacant, and leases are expiring. And if Jared Kushner's hopes of turning the building into the Hadid-designed tower are ever realized, the company will have to raise some \$2.5 billion in equity, followed by a construction loan of more than \$4 billion.

Meanwhile, the current revenue from the building can't keep pace with the bills, forcing the Kushners to spend millions in order to cover the shortfall, and New York's high-end real estate market is cooling down after years of growth. *"This building has had financial issues for years now,"* one analyst told the *'New York Times'* in April. *"How much longer can they sustain it?"*

In short, the building is beset by debt, which is soon to catch up to the company and a lack of interest from investors, both foreign and domestic. In perusing the financials, and speaking with people close to the Kushners, Bloomberg found that the skyscraper is "a big bet that has complicated [Kushner Cos.'s] financial future."

Here are some of the more eye-popping tidbits from the report:

- Regarding the mortgage for 666 Fifth Avenue: "The company still holds half of a \$1.2 billion mortgage, on which it hasn't paid a cent. The full amount is due in February 2019."
- "After a refinancing, the deed to 666 Fifth sits in an escrow account, ready to be seized by lenders in a default, an action indicating their trust has grown thin."
- On Kushner Companies' ownership stake in its various NYC properties: "One Brooklyn development site purchased in 2014 for about \$75 million and heralded by the real estate press as "Jared Kushner's big Gowanus project"—so-named for the canal it abuts—is in fact barely owned by the Kushners at all. SL Green Realty Corp., their partner in the endeavor, owns 95 percent of it, according to a regulatory filing. The remaining 5 percent is split between the Kushners, and LIVWRK, another developer."
- On the company's holdings in Brooklyn: "Among the six buildings the partnership purchased for \$375 million in 2013 is a 30-story hotel at 90 Sands Street scheduled to be turned over to the Kushner group later this year. Kushner Cos. is now exiting the partnership and selling its stake to RFR, [president Laurent] Morali said."

- On plans to transform the building into a high-end condo: “In 2014, at a meeting in his 57th Street headquarters with Jared Kushner and his father, Charles Kushner, as well as others wrestling with how to save the investment, [Vornado head honcho Steve] Roth argued against the Kushners’ extravagant renovation plans, saying, ‘It would be worth a lot more if it was just dirt,’ according to two people who were there.”
- “For \$80 million and the assumption of half the debt, Vornado put itself in the best position to become 666 Fifth’s sole owner in the event of a restructuring or worse.”
- On the Kushner clan’s record-breaking purchase of 666 Fifth: “Charlie Kushner’s dealmakers couldn’t get the numbers to add up, but he didn’t care. ‘I buy it, you make it work,’ he told his accountants, according to a participant in the meeting.”
- And then: “After the deal closed in January 2007, the group celebrated with a party at one of the most expensive restaurants in New York, *Per Se*. Everyone there was given a pair of silver cufflinks fashioned in the embossed look of the building’s exterior.”
- On the new condo-fied plans for the building: “a \$4 billion construction loan and a business model that assumed the condos would sell at the aggressive price of \$9,000 per square foot”

All of this paints a dark picture for the Trump family, making them even more susceptible to the deep pockets of the Rothschild’s. Is it enough to lead the country into a war with Iran? We are not talking chump change here. We may admire the President serving in office for a \$1 a year, giving his quarterly presidential salary checks to various government agencies to pay for national park repairs, to veteran’s cemetery upkeep, etc., but this merely buys press in the opinion survey poles, and doing nothing to cut the strings that sway Trump’s creditors that are after control of the Central Banks of **Iran** and **Syria**.

## The world's Megabanks

There are two Megabanks that offer loans to all the countries around the planet, the World Bank and the IMF. The first one is jointly owned by the world's top banking families, with the Rothschild's at the very top, while the second one is privately owned by the Rothschild's alone.

These two Megabanks offer loans to "developing countries" and use their almost impossible-to-pay-back interests to get their hands on the real wealth: **land** and **precious metals**.

But that's not all! An important part of their plan is to also exploit a country's natural resources (like petrol or gas) via their covertly-owned companies, refine them, and sell them back to the same country, making a huge profit.

But in order for these companies to operate optimally, they need a solid infrastructure, which is usually lacking in the so called "developing countries." So before the banksters even offer the almost impossible-to-pay-back loans, they make sure that most of the money will be invested in — you've guessed it — infrastructure.

These "negotiations" are carried out by the so called "Economic Hitmen", who succeeds by handsomely rewarding (i.e. bribing) or threatening with death those who are in the position to sell away their country.

It is shocking for many to find out that the United States of America is a corporation ruled from abroad. Its original name was the Virginia Company and it was owned by the British Crown (it should not be mistaken for the Queen, which functions largely in a **ceremonial capacity only**).

The British Crown donated the company to the Vatican, which gave the exploitation rights back to the Crown. The US Presidents are appointed CEOs and their business is to make money for the British Crown and the Vatican, who take their share of the profits every year.

**The British Crown covertly rules the world** from the 677-acre, independent sovereign state, known as The City of London. This other Crown is comprised of a committee of 12 banks headed by the Bank of England. Guess who is controlling the Bank of England? Yup, the Rothschild's!

In 1815, Nathan Mayer made the following statement:

*"I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets. The man who controls Britain's money supply controls the British Empire, and I control the British money supply."*

The House of Rothschild is really at the top of the pyramid of power. They are behind the New World Order and the complete domination of the world agenda. They are behind the European Union and the Euro and they are behind the idea of a North American Union. They are controlling all of the world's secret services and their private army is NATO.

## **Bank of International Settlements**

The list above shows 165 different ways how The First Sphere of Influence (Rothschild's and the Brzezinski Cartel) controls the world. One hundred and sixty-five reasons to believe what I say to be 100% accurate and true.

Each entry is a separate and distinct central bank, located in a separate and distinct part of the world. These central banks cover the globe and know absolutely no boundaries, effectively erasing borders between even sworn enemies.

The Bank of International Settlements or BIS (pronounced BIZZ) is the Rothschild's piggy bank, a veritable deep-pit mine, the equivalent of quadrillions of dollars.

What's the significance of having a central bank within a country and why should you concern yourself, your family and colleagues?

Central banks are illegally created PRIVATE banks that are owned by the Rothschild banking family. The family has been around for more than 230 years and has slithered, like the snakes they are, its way into each country on this planet, threatened every world leader and their governments and cabinets with physical and economic death and destruction, and then emplaced their own people in these central banks to control and manage each country's pocketbook.

Worse, the Rothschild's also control the machinations of each government at the macro level, not concerning themselves with the daily vicissitudes of our individual personal lives. Except when we get too far out of line!

The grand plan of The First Sphere of Influence is to create a global mono-nation. We know this as a one-world government, one-world economic system, and the one-world religious system.

Above photo – Bank of International Settlements, Basel, Switzerland

Please do not confuse this with the term globalization. Mono-nation and globalization couldn't be more different in concept, scope and purpose.

Mono--nation is one state. It has one government. One set of laws for all ordinary citizens, no laws for the elite. Globalization refers to communicating, trading, interacting, etc. among separate, different, independent, sovereign countries.

The grand plan of The First Sphere of Influence is to create a global mono--nation.

Our own Federal Reserve is an illegally emplaced private bank that is directly responsible for creating all the US's depressions, recessions, and the inflation and deflation of our dollar. The Fed controls the printing of our own currency, and then charges the US government interest on those loans.

The interest is growing each year, making it difficult if not impossible for our government to pay it. As the past four administrations have spent, spent, spent, they have driven the government

to the point where interest on debt service will soon eat up every dollar the government takes in.

And how do we pay this interest? By the illegal and unconstitutional U.S. Personal Income Tax. This tax goes to the Rothschild family. 40% goes to the Bank of England, i.e., the Rothschild's; 60% goes to the Vatican Bank, largely run from Switzerland. The documents show that the 16<sup>th</sup> Amendment to the Constitution was never ratified into law by the required number of states. Even before that an earlier effort to create an income tax was ruled unconstitutional by the United States Supreme Court.

How does the government continue defrauding the citizens of the USA when there is no law for the Internal Revenue Service and a personal income tax is illegal and unconstitutional? They are able to keep the fraud running through ignorance, intimidation, fear, the bully pulpit, disinformation, and subterfuge. When you mail in your voluntary tax 1040 forms on April 15<sup>th</sup>, your check is deposited into a Trust Fund in a Puerto Rico bank, where it remains as a deposit for one year, and at the end of the year, the Trust Fund account is distributed to the two noted recipients above: The Bank of England (Rothschild's) receives 40% and the Vatican receives the larger amount of 60%.

If you doubt this to be the case, the first question you should ask is why does your check get deposited in a bank in Puerto Rico? Anyone could have known this prior to 2010 by checking the bank endorsement on the back of their personal check. After 2010 it has become more obscure since most banks do not return their customers' cancelled checks. How convenient of them to further obfuscate the matter?

Twenty-five years ago, I came across this fact by accident. I was opening my bank statement at the kitchen table when I dropped the batch of cancelled checks. For some odd reason, I noticed that my check to the IRS was deposited in a Puerto Rico bank. Puerto Rico is not even a state and I began to question the purpose for this since I lived in western Pennsylvania, serviced by the IRS offices in Philadelphia, PA. When the Internet came along, researching and investigating became a whole lot easier to get to the bottom of this fraud.

By the way, if you're curious what the U.S. debt is to the BIS, please refer to the table below, taken from the latest statistical results provided by the Joint External Debt Hub, which receives data from the, BIS, International Monetary Fund, World Bank, and the Organization for Economic Cooperation and Development. In this case, the latest data was for 2008/2009. The BIS does not concern themselves with prompt posting of financial data.
